Modesty in the language of gems. "pavane", "pave love"

This is a new DOLLS book after a long time, isn't it?

According to Nakamura's request, the main story covers an episode from Sakurazawa and Shouji's past days which hasn't got much attention in official manga volumes yet. "Since the canon is bloody, ghost designs can be mellow," I thought when I started writing it. Tinkled up bloody as usual.

And yet I regard this most bloody person, Sakurazawa, as practically the most pure-hearted great man in the whole Special Education Force. It has not been touched in the canon yet, so we'll be happy if you can feel his idea of justice and his affection for Shouji.

Also there's a short extra like heartwarming manga about another innocent pair, if you please.

Appeal to Reader's Wisdom

I hope you enjoy reading this doujinshi as much as I did translating it! If you like the story I highly encourage you to pay respect to the artists by purchasing your own copy if given the chance.

Please

- do not upload this translation to any manga/doujinshi aggregation sites / online readers!
- do not share single pages from the archive anywhere.

Please keep in mind that free online distribution offends and discourages the mangaka in the first place so showing off these things in a provocative way is not the most reasonable policy.

Thank you for your understanding.
